Maharashtra State Board / 2015 - 2016
S.M.S.M.P.V.Velapur

EXPERIENCE

- **Company Name: ProAzure Software Solutions Pvt. Ltd.**
- **Duration: January 2024 - September 30, 2024**
- **Key Achievements:**
- Developed a user-friendly login interface and essential UI components using React.js, JavaScript, HTML, and CSS, enhancing user engagement and application usability.
- Collaborated with cross-functional teams, including product managers and designers, to deliver high-quality products on schedule.
- Utilized React tool (Redux) to optimize application performance and maintain a clean, efficient codebase.
- Created and maintained comprehensive documentation, including test cases and release notes, to facilitate future development and team collaboration.

ACHIEVEMENTS

Secured a top rank in the KSOLVES Hackathon, recognized with a certificate for outstanding performance in problem-solving and software development.

CERTIFICATION

- **Hacker Rank**
- SQL
- JAVA

- **Udemy**
- Web Development

- **Sunstone**
- Developer Portfolio
- Drone Making and Assembly

- **Technocomp Academy**
- Core Java

PROJECTS

- **Movie Library App**
- Sign In and Sign Up authentication
- Built using MVC Architecture
- User can search a movie name and get details of that movie
- Details of movies are fetched from API
- User can add a movie to a playlist
- Playlist is completely private and user can see it after login only
- Without sign in user can search movie and get details but cannot add to playlist

- **Blog App**
- Sign In and Sign Up authentication.
- Users can create, edit, and delete blog posts.
- Users can comment on and like blog posts.
- Integrated with a third-party API for fetching related blog content.
- User profiles with the ability to upload a profile picture.
- Search functionality to find posts by keywords.
- Responsive design for seamless usage on different devices.

- **Task Management API**

Description: Developed a Task Management API with role-based access control to manage admin and user functionalities.

- Admin Role:
  - Create, edit, and delete tasks with details like title, description, and due dates.
  - Manage task statuses and assign tasks to users.
- User Role:
  - View and update assigned tasks, track progress, and collaborate through task comments.
- Features:
  - Role-based access control: Admin and User-specific routes and permissions.
  - JWT Authentication: Secure user login and protected routes.
  - Task Management: Admins control task creation, users manage assigned tasks.
  - Tech Stack: Node.js, Express.js, MongoDB
